The customs service is discussed at
some length in the report, and it is
stated that there does not seem to be
atted that there does not seem to be
to be a support of the service of the
in the number of ports of entry. Atteution is directed to the marked increase in the customs receipts under
American management. This is explained in part by the fact that formerly a large part of the imports
came from Spaia and puid as duties.
Also, the American system of collections. The new tariff adopted for the

Lutted States limitaration Laws.

The extension of the United States limitagration laws to the island with-many control of the United States limitagration laws to the island with-local conditions is said to have proven of doubtful expediency, and especially so with regard to the contract labor law. It is essential, asys the report, for the mercautile interests to secure employes from abroad under contract, else business will suffer perition with the native residents. More than \$2,000 Chinese entered and left the lands is last year. Only one-link hof the land in the archipelago has been brought under outivation, and there is no land tax.

The yadicial Department, it early was found to be necessary to trace the conflict with American so much it conflict with American atandards. It was impossible for lack of time to supply an entirely new system; so some changes regarded as indispensable were made by a general order.
